

## Notification of Change

September 13, 2021

Shenandoah Biotechnology  
103 Steam Whistle Drive, Suite A  
Warminster, PA 18974

To whom it may concern,

Shenandoah is sending this notice to inform our customers of a change to the product specification of recombinant Mouse FGF-9 and Mouse FGF-9 (AF) (catalog numbers 200-13 and 200-13AF). All other previous product details and specifications will not change. All quality control testing has been completed and approved.

### **Change 1- Biological Assay:**

#### **Mouse FGF-9**

Previous Bioassay:	BALB/c 3T3 Proliferation	ED50 ≤ 10 ng/mL (≥ 1.0 x 10 <sup>5</sup> units/mg)
New Bioassay:	NR6R 3T3 Proliferation	ED50 ≤ 10 ng/mL (≥ 1.0 x 10 <sup>5</sup> units/mg)

This change will take effect for all lots of recombinant Mouse FGF-9 and Mouse FGF-9 (AF). Documentation has been updated to reflect this change.

Please contact me if there are any issues or concerns.

Thank you,

Martin P. Keough, PhD
